

SPRING BREAK 2010

ABYSA's FUNdamentals soccer camp offers a games-centered teaching approach to soccer because excited and entertained children learn better. The FUNdamentals teaching method is designed to enrich players' passions for soccer while teaching them the proper techniques for future soccer success.

Campers will be placed in proper age groups to ensure all players benefit from developmentally appropriate activities, teaching, and competition.

The camp will employ games designed to build technical foundations for dribbling, passing, receiving, shielding, and shooting.

Older age groups (11-14 year-olds) will also be exposed to individual and small-group tactical implications of the game.
